

Hartz® Sustainability Actions

We continue to seek and procure sustainable raw materials to support Hartz innovative products.

Hartz works with supply chain partners where 80% of our spend is dedicated to those with verified sustainability commitments.

Hartz only sources tuna that is certified as dolphin-safe.

Our Ohio manufactured dog pads contain 100% certified sustainable paper pulp.

We develop & source innovative packaging solutions to reduce the environmental footprint of Hartz products while maintaining product quality.

Reduced the plastic in our flexible packaging by up to 18%.

Converted 25% of the plastic packaging to include some form of recycled content.

Implementing up to 100% PCR (Post-Consumer Recycled) material in plastic packaging.

Over 75% of the paperboard in our packaging is from recycled paper.

How2Recycle printed on all eligible recyclable Hartz packaging.

Electricity powering the Hartz USA manufacturing facility is offset by 100% renewable energy credits. We aim to increase the energy efficiency of our equipment and processes.

Every year over 3000 Metric Tons of CO₂ (mtCO₂) is kept out of the environment.

We have converted all the lighting in our corporate headquarters and distribution & manufacturing centers to energy-efficient LED fixtures. Our new energy-efficient lighting saves over 40% on electricity per year.

Reducing Solid waste sent to landfills

Hartz adopted simplified packaging concepts to minimize the packaging required to deliver our products to the consumer, saving natural resources while reducing packaging waste.

In 2025, Hartz USA manufacturing site kept 415MT of waste out of landfills by recycling & donating surplus products. Keeping over 2700MT CO₂e out of the environment.

Hartz Distribution Center recycles pallets saving over 5000 trees annually.
